Public Hearing on a request from Ernest Communities, LLC for a Master Plan revision for Williamsburg Townhomes. The property is located on Fort Howard Road. The property is zoned MXU and owned by Ernest Communities (Map #R2240001C)

Open public hearing: 7:15 PM

Attorney Dickey all proponents will be allowed a minimum of 15 minutes and anyone who opposes will also be allowed a minimum of 15 minutes. No one was present from Ernest Communities. Mrs. Kelly presented the original master plan submitted by Ernest Homes with the project, which showed office commercial in the front and townhomes on the right. What Ernest Communities is proposing is the area designated office commercial will now become townhomes and the number of townhomes will increase from 54 to 78.

Dana Barnwell, 500 Stephanie Avenue said she has lived there for 18 years and would like to see the owner maintain the original master plan approved in the early 1990's.

Tom Mazurski 228 Stephanie Avenue said he is opposed and the addition of condos will increase traffic. There is plenty of opportunity for accidents. The owner took trees beyond the 30 foot barrier and she bulldozed the berm. He opposes this because of safety issues and would like to see it go back to original master plan.

Doc Pahls 213 Stephanie Avenue talked about the 13 green and how the trees were removed at the big hook that lines up at top the 13 green. There you will have a bunch of townhomes and a bunch of kids screaming where there used to be peace and serenity of a beautiful golf course. This will affect the golf course.

Linda Boyette 222 Stephanie Avenue said when you turn into the entrance you will have people coming out of the townhomes and there are trees in the median and you will not be able to see. This will be a very big accident area.

Caren Blackwell 301 Stephanie Avenue said she brought her home in 1996. She was presented master plan with the buildings in the front and the 54 condos on the side. Since then she has been coming to the meetings for 20 years trying to get the owner to stick to the master plan. She just wants her to stick to the master plan.

that Rowe made the recommends. The recommendation is to install a screened gravel pack and that should keep the sand out. Mayor Lee confirmed the cost, \$62,602.00 for the first three years and then a maintenance charge up to the tenth year. Mr. Bowles said that is correct and if anything needs to be done to the well, the pump, the motor or the riser pipe, Rowe will take care of that at no additional cost. Mayor Lee asked if the cost for the first three years was going to be 187,806.00, Mr. Bowles said yes we are paying for it over the course of three years and includes the warranty. Mr. Bowles said we need to do something one way or the other because we have PINCO waiting on us. The tank is empty and needs to be sanitized and put into use.
